Profile

Full Stack Developer with over **7 years of experience** in Developing and Deploying Mobile and Web Applications. Proficient in Front-End and Back-End technologies including **JavaScript/Typescript, HTML/CSS, React, Next.js, React Native, Redux (Redux Toolkit, RTK Query), PHP (Laravel), Astro.**

I have successfully managed independent projects, delivering solutions from concept to deployment. Additionally, I have **collaborated with major companies** to develop and implement complex systems.

I enjoy working with a variety of programming languages and always ready to take on new challenges to learn more.

Experience

Frontend Developer - Accenture

September 2023 - Present (Milan/Remote)

As a Frontend Consultant at Accenture, I have worked on multiple projects.

- I contributed to the development of an international E-commerce platform, built with **React** and **Redux** for the Frontend and integrated with **Adobe AEM** for content management.
- I am currently working on a **car configurator** for a major automotive company, developed using **React, Redux, Vite** as the bundler, and following **Atomic Design** principles.

I collaborate within a **Team of over 30 professionals**, including Business Analysts, Developers, and Testers, using the **Agile methodology**.

Full Stack Developer - Freelancer

April 2018 - Present

Design and Development of Websites, Web Apps, and Mobile Apps

- Development of the **FantaTennis platform** (www.fanta-tennis.it), including both the Web App (built with **React** and **Redux**) and the Mobile App (developed with **React Native**), with **Laravel** as the backend API framework.

Communication

Education

Bachelor's Degree in Computer Science and Software Development

University of Bari "Aldo Moro" | 2014 - 2018

High School Diploma

I.T.I.S. "Luigi Dell'Erba" Castellana Grotte (BA) | 2009 - 2014

Languages

Italian

Native Italian speaker

English

Strong communication skills in English in work-related contexts

- Development of small iOS applications built with Swift and SwiftUI, available on the App Store: [Lineup Builder App](#), [Scoreboard App](#)

- Design and development of websites and web applications such as [www.allwayspuglia.it](#), [www.imperialflex.it](#), [www.formastudiotraining.com](#) and [www.tangoproject.eu](#).

- Design and development of an online platform for running race bookings ([www.amatoriputignano.it](#)).

Technologies used: **React**, **Redux**, **React Native**, **Astro**, **Laravel**, **HTML5**, **CSS**, **Bootstrap**, **JavaScript**, **WordPress**.

Full Stack Developer - Traipler.com

April 2018 - April 2023 (Putignano, Bari)

Development of a Web Application (<https://supplier.traipler.com>):

- Front-end Implementation using **React JS** and **Typescript**
- API Implementation using **Laravel**
- **Integration with Facebook and Google Ads APIs**

Design, Development and Maintenance of the Website [www.traipler.com](#) and other Sites created for customers:

- Front-end Implementation using **HTML5**, **Css (Sass)**, **Bootstrap**, **Javascript (jQuery)**
- Back-end Implementation using **Laravel PHP Framework**
- Database Design and Development using **MySQL**

Maintenance and Update of Company CRM developed with **.NET Core**

- Bug resolution and implementation of new features.

I worked in a Team together with Developers and UX/UI Designers. All the projects were stored on **Git** and deployed on **Linux Application Server**.

Frontend Developer - Missing Tech Sagl

February 2023 - February 2024 (Switzerland/Remote)

- Implementation of a Dashboard for analysis of data provided by APIs built with **React**.
- Bug fixing and Implementation of new features on platforms built in **Vue** and **Laravel**.

Founder - Faidatech.com

April 2018 - December 2024

E-commerce for the sale of spare parts and accessories for Smartphones, PCs and Tablets.

- Implementation and management of a store on the Ebay marketplace
- Implementation and management of the E-commerce with Shopify
